My wife and I are really sick and tired of all the sex and violence that is on TV. Is there something that can be done to stop this activity? We are afraid of the affect on our grandchildren, as well as, we are just plain fed up with what can be viewed. Surely there must be some way to put a stop to this type of programing. It just gets worse and worse as the months go by. Where will it end? More kids killing more kids? Please take this to heart and make some sound decisions right away.

Dear FCC Commissioners:

Violence on TV is harmful to children and persons in all other age groups, I believe. In TV's infant years, violence and sex and immorality was exceedingly low -- and TV was still watched a good bit. This shows that it is unnecessary to have violence to sell advertising and products.

We are strongly in favor of your vigilance in the availability of violence on T.V. We know without a doubt that it will affect the hearts and minds of our young people. Some are effected mildly while others are affected greatly by being desensitized by the violence that is so easy to see just flipping the channels. We ask you to protect our children and grandchildren and regulate this area to a much higher degree. You have a great responsibility in your decisions affecting generations to come. Please do so with great thought, seeking wisdom in what you do.

I think that there is way too much violence on television. It is not only present after "bedtime", but is on the air throughout the evening when children may be watching. There have been over a 1000 studies finding a detrimental effect on children who watch TV violence. It is time to do something about it. If there must be violent TV shows (and I don't personally think ANYONE should watch those currently airing), they should definitely be moved to after 9 p.m. at least. What ever happened to the "family hours"?

Sincerely,

Jane Zimmerman

I will make this brief as I hope you get 1000's of these. Please help eliminate the crude violence on TV. Our children are influenced by what they SEE. It is just that simple. Parents cannot be with their kids 24-7!!! Help our communities and our society by limiting the violence. As for me and my family, we rarely watch TV. We would love to be able to watch more movies but even to us adults, we do not need or want the violence, or for that matter the sexually explicit ones. We are very weary of that also!! !! As a mother of 4 small children, I would like to voice my concern over the amount of violence on television during the hours children are watching. Whether it is dinner time or Saturday mornings, there is just too much violence!! I have found that if my children watch violence, they want to act out violence. When I eliminate violent shows, their violent behavior ceases. My children do not have any mental/emotional problems, nor are they being raised in a violent home/neighborhood, so there is no other explanation for their learned behavior than the television. Please encourage programmers to create more family friendly shows.
